THE CHAMBERLIN FREE PUBLIC LIBRARY.

CHARLES T. WHEELER, Librarian.

TRUSTEES' REPORT.

Pursuant to the town's vote, at its last annual meeting, the trustees met the selectmen in conference "to provide a suitable room, without delay, for the use of the library and reading room." The only way of immediate relief seemed to be in the further furnishing of the selectmen's room with all possible conveniences, until special provision could elsewhere be secured. At some personal inconvenience the town fathers coöperated heartily with the library officers, as they have hitherto done, and the requisite changes were made. The place is now well lighted and its facilities very much improved. All those seeking to spend a leisure hour with the latest and choicest current literature have found an inviting opportunity four evenings each week during the year. At the same time the library has been open for the exchange of books as freely as upon Saturday afternoon. With this increased privilege a constantly growing interest has been manifest. The outlay for newspapers has been small. Friends have continued to furnish the local and some of the other weeklies gratuitously. Others might extend the good work with a little care and their service would be appreciated by the

thoughtful public. The interest in the monthly magazines has been marked, and to their supply others should be added. The worn volumes referred to last year as in process of re-binding have again been put in circulation. Sixty-two new books have been purchased and another order, nearly as large, will speedily be open to the library patrons. An unusual number of volumes, some of conspicuous value, have been received from public sources. Private gifts have always been gratefully accepted and are still most welcome. Dr. Munsey has, once more, indicated his abiding interest in the literary life of his former home by another of his annual gifts. The municipal library is fast coming to the front as an educating agent in our land. There is reason for rejoicing that through its aid every aspiring youth may become intellectually rich in acquaintance with the best thoughts of the wise and good. The hand of the state is outstretched for generous help to every willing child. Let our sympathies and contributions be ever with it.

REPORT OF THE CEMETERY COMMITTEE

Beyond the ordinary care of the cemetery during the past year there has been call for special outlay in the construction of a new hearse house. The building required was so much larger every way than the former one that any attempt to remodel it seemed unwise, particularly as the selectmen could utilize it for another public purpose. Hence it was given up to them and an entirely new structure put in its place, with such plan and proportions as the circumstances seemed to require. The grounds were graded and a wall put upon the north and east sides, according to the conditions of original purchase. The north gate was also improved for easy driving through the house.

An early overflow of water from the west side of the highway, with damage to the south part of the cemetery, necessitated some effective action to prevent the recurrence of such unpleasant experience. To this end thorough work has been done. The road has been so elevated, broadened and protected by the excavation of a water-course upon the west side that we believe that no similar trouble will again occur. Incidentally the highway also has been greatly improved in an important place. The expense has been considerably increased by the special obstacles to overcome. Costly blasting has been necessary on account of ledge, both in the hearse house yard and where the street improvements were required, the latter incidentally alone involving an outlay of more than ninety dollars. The trustees have uniformly acted in harmony with the other town officers, and valuable soil removed has been put to good use in the construction of the new sidewalk.

The original deeds have been found and the cemetery title perfected. Further improvements are still desirable and the coöperation of all is requisite that each lot may be thoughtfully cared for and the hallowed place be made as interesting as possible. Since the extension of the Pleasant Street sidewalk almost to the cemetery gate, giving easy access to its suggestive mounds and monuments, it becomes us to deepen our concern for the "churchyard" so dear because of the many loved forms committed to its keeping.

REPORT

— OF THE —

SCHOOL BOARD

— OF —

GREENVILLE, N. H.

SCHOOL REPORT.

The School Board submit the following report :

The schools have been kept 36 weeks the past year. Our teachers have done good work. The committee have introduced vocal music into the schools the past two terms, under direction of Miss Stevenson, and the results are very gratifying. It is to be hoped that it will be continued.

Frye's Geography, considered the best work of its kind, has been introduced into all the schools. Supplementary readers have also been introduced in grammar grade. A new geographical chart, a very instructive work, has also been put into the schools.

The advantages of graded schools are now noticeable, a class progressing a step each year. Thus the scholars in grammar grade, by taking only studies in that grade and having whole attention of the teacher, are ready for the Academy or High School at an earlier age than formerly. The past year, to accommodate a few scholars whose parents wished them to go to the school longer, some studies were taken from the regular grammar schools to allow recitations for these advanced scholars. This deprived the regular scholars of some necessary studies and the advanced scholars could not be given a full course, thus both lost ground. The district should make some provision for giving scholars who have finished the regular grammar grade further instruction without depriving other scholars of their just dues. With three classes in a grammar grade and all the studies now required by that grade, it cannot be done in regular school hours, without an extra teacher.

The State school year now ends August first and reports are submitted to State Superintendent at that time. Consequently a part of the report generally presented to the district is omitted.

The south school was not opened the past year, the committee deeming it best to transport the two scholars in that district to Greenville.

The Literary Fund this year was \$58.19 less than last year, making our balance to new account so much less.
